## Summary:

Sujoy Dutta is an international Project Management consultant and trainer having over 23+ years of varied past experience in the IT industry as Developer, Systems Analyst, Project Manager, Program Manager and Delivery Manager. He also has overseas work experience in the USA, UK, France, Germany and Middle East.

He brings 13+ years of hands on experience to trainees in Project Management and Project Management software like MS Project 2010/2013, Project Server & Primavera P6. The trainees have demonstrable and measurable skills at the conclusion of the training sessions. He has trained thousands of people from varied industries like Information Technology, Construction, Manufacturing, Event Management, PSUs and Software including senior management. He provides project management consultancy along with PM trainings.

Sujoy has over 15 years of hands-on experience in Clients, Team, Projects and Program Management. He was one of the first persons in India to work on online travel projects in the year 1999. His best ability is to connect with a diverse range of people who have different cultural and industry backgrounds. This is very evident from the connected people that he has trained <https://www.linkedin.com/profile/view?id=27136091> and the genuine testimonials received.

Drawing upon his rich experience and using his power of creativity, Sujoy creates a learning environment which blurs the gap between industry and training room and delivers lasting skills and impressions.

He has excellent verbal communication skills. He speaks fluent English and Hindi

If you are looking out for inspiration and motivation along with training then he is the right person.
