### **Agni Shekhar Mandal**

**Manager, Program Management at SapientNitro**

I am using MS Project since year 2007 and I thought I was pretty good at it :) however I met Sujoy through another training Session I took with him and liked his methodical approach and wide spread knowledge on the domain and decided to attend a 16 hours, MS Project 2013 to brush up my MSP skills.

I must admit that to my surprise I learnt lot deeper details in these 2 days of training that I learnt over these years on the job.

I must say that not every person can satisfy my depth of the queries however he patiently listened and nailed down each of my questions and more, each time, I found him a very knowledgeable person and I personally liked his teaching style.

I am sure his team must have really enjoyed thoroughly his leadership during his corporate tenure.

I am glad to be a part of his MSP 2013 training program as I thoroughly learnt both the basics and depths of the tool and also enjoyed every minute of the session as he always kept the training lively and interactive.

The program was worth every cent I spent and more.

I want to thank you for the training, as now, I make better and quicker project plans with confidence that my peers lack that gives me an edge among my account leadership.
